

IT'S A BOTTLENECK! SKIP THE TRAFFIC AND HEAD TO SUMMERLAND.

Our touring route winds through spectacular landscape that is the backdrop for exploring the Okanagan's most scenic back roads. Two mountains, formed by volcanic activity, and retreating glaciers over 9,000 years ago, form our terroir. Ragged clay cliffs with deep gullies, creeks, and lakeshore, make it impossible to get from A to B in a straight line, so take your time.
